

2. Poliomyelitis Vaccine - A minimum of three doses of trivalent oral poliomyelitis vaccine (OPV), with one dose administered after the fourth birthday or three doses of enhanced-potency inactivated poliomyelitis vaccine (IPV), with one dose administered after the fourth birthday when OPV is contraindicated.

3. Measles (Rubeola) Vaccine - For students enrolling in kindergarten or first grade on and after July 1, 1991, one dose of live measles vaccine administered at age 12 months or older, and a second dose administered prior to entering kindergarten or first grade, whichever occurs first. The two doses must be administered at least one month apart. Students entering sixth grade on and after July 1, 1992, shall also have received two doses of live measles vaccine, with the first dose administered at age 12 months or older and the second dose at least one month after the first dose. All other students shall have received at least one dose of live measles vaccine. Any measles immunization received after 1968 should be considered to have been administered using a live virus vaccine.

4. German Measles (Rubella) Vaccine - A minimum of one dose of rubella virus vaccine administered at age 12 months or older.

5. Mumps Vaccine - A minimum of one dose of mumps virus vaccine administered at age 12 months or older. The requirement for mumps vaccine shall not apply to any child admitted for the first time to any grade level, kindergarten through grade 12 of a school prior to August 1, 1981.

6. Haemophilus Influenzae Type b (Hib) Vaccine - A complete series of Hib vaccine i.e., up to a maximum of four doses of vaccine as appropriate for the age of the child and the age at which the immunization series was initiated. The number of doses administered shall be in accordance with current recommendations of either the American Academy of Pediatrics or those of the U.S. Public Health Service. Attestation by the physician or his designee on the temporary form documenting immunizations against Hib, that portion of Form MCH 213C pertaining to Hib vaccine, a computer generated facsimile of MCH 213C, or on the MCH 213C SUPPLEMENT as defined in § 1.1 under "documentary proof" shall mean that the child has satisfied the requirements of this section. This section shall not apply to children older than 30 months of age.

The dosage schedule for Hib vaccine varies with the manufacturer. The number of doses of vaccine required is also governed by the age at which immunization is initiated. Hence the reason why the requirements for Hib vaccine are prescribed in a manner different from those for the other vaccines.

7. Hepatitis B Vaccine - A minimum of three doses of hepatitis B vaccine for all children born on or after January 1, 1994.

§ 3.2 Exemptions from immunization requirements.

A. Religious and medical exemptions - No certificate of immunization shall be required of any student for admission to school if:
